EMMA'S SPECIALITIES ARE:

FADE TO GRAY

For those clients tired of covering their grey hair every four to six weeks, let's instead embrace and elevate it! I will discuss the different options and routes open to the client, suggesting a clear treatment plan to begin the process of removing or growing out your existing colour; while enhancing your natural base, working with your skin tone to create the right colour.

CLASSIC HIGHLIGHTS / LOWLIGHTS

The positioning of foils, choice of colours and application are important when highlighting / lowlighting. In addition to placing the colours in a way that they work with the desired haircut. Again, I work with natural tones in the hair- very low maintenance looks).

BRUNETTES

Colouring wash is not all about Blondes. I love working with my beautiful Brunettes. I again work with natural tones in the hair and embrace and create a healthy, shiny, low maintenance look.
